

CS492: Probabilistic Programming

Implementing Inference Algorithms for Probabilistic Programs

Hongseok Yang
KAIST

Two approaches

- Translation to a known probabilistic model.
- Inference by evaluation.

Two approaches

- Translation to a known probabilistic model.
- Inference by evaluation.

Inference by evaluation

View an inference algorithm for prob. programs
as a non-standard interpreter.

Plan

- Blackboard lecture.
- Look at the lecture note, “Note6.pdf”.
